

*CF Nurse Louise Taylor  
with CF patient Sierra*

A remarkable thing happened on a walk  
through the chromosome:  
Looking back at the discovery of the cystic fibrosis(CF) gene  
On Wednesday, March 21, please join us for a special symposium  
in honour of Dr. Lap-Chee Tsui.

Recently announced inductee to The Canadian Medical Hall of Fame, *Dr. Lap-Chee Tsui*, returns March 21 as guest of honor for this afternoon event. Introductory remarks by *Mary Jo Haddad*, President & CEO at The Hospital for Sick Children and presentations by leading experts *Dr. Stephen Scherer*, Director of the Centre for Applied Genomics at The Hospital for Sick Children, *Dr. Eric Sorscher*, Director of the Gregory Fleming James Cystic Fibrosis Centre at the University of Alabama at Birmingham and *Dr. Johanna Rommens*, Senior Scientist, Genetics and Genome Biology, The Hospital for Sick Children. *Dr. Lap-Chee Tsui* will also share his thoughts on what has been one of the most significant breakthroughs in human genetics in 50 years -- the discovery of the gene that causes cystic fibrosis.

The Hospital for Sick Children  
The Daniels Hollywood Theatre  
555 University Avenue

Symposium 1:00 p.m. to 3:00 p.m.  
Reception 3:00 p.m. to 4:00 p.m. (in the Rotunda)

To RSVP to the symposium, please email [sickkidsevent@sickkidsfoundation.com](mailto:sickkidsevent@sickkidsfoundation.com)
