

TCAG New Technologies Seminar

Accelerating Genomics with the DNAnexus Platform

Date: Thursday, Sept. 26
Time: 10:30 – 11:30 a.m.
Location: Room 14-203, MaRS TMDT
101 College St.
Speaker: Andrey Kislyuk
Senior Software Engineer
DNAnexus

The DNAnexus Platform is a new cloud-based genomics solution that enables bioinformaticians to get results faster, work with collaborators across a variety of expertise levels, and standardize and distribute their workflows. In this presentation, we will cover how features of the platform like a fully configurable and scriptable genomics API, command-line interface and SDKs, and compliance with clinical and diagnostic standards enabled researchers to deploy clinical-grade workflows on DNAnexus.

Hosted by The Centre for Applied Genomics and
the Ontario Genomics Institute
